

GAVIN WALSH

CAREER SUMMARY

My name is Gavin. I'm originally from Ireland and moved to Barcelona after spending the past 2.5 years in Canada. I've been self-teaching web development for 10 months and I'm now looking for a company to work with to further develop my skills in a professional environment.

PROGRAMMING SKILLS/ EXPERIENCE

Front-End Projects

Portfolio | Mar 2022 to Present.

Project One: Flight Entertainment System

This app was built using React and styled with CSS. I made use of multiple API's to gather information for movies and for my live weather widget. The idea of this project was to apply all of the new React concepts I had learned to one project.

Project Two: West-Coast-Construction Website

Built with React & styled with SASS. I designed this website to showcase my ability to build responsive web pages and to show that I can work with CSS preprocessors. After working on this project, I have moved on to learn Tailwind CSS which will be added to my skills very soon.

WORK EXPERIENCE

The George Payne Irish Bar, Barcelona

Bartender | Sep 2022 to Present

- Meet and greet and provide excellent customer service to clients.
- Operate the bar and make sure to keep the customers under control.
- Adhere to all food safety and quality regulations.
- Make sure to communicate clearly to other staff members.

Project Three: Single Page Portfolio Website

I built this website with React & styled it with SASS. My goal for this website was to keep it as user-friendly as possible so I opted for a single page website to showcase my work. I used different packages in this project to implement smooth scrolling and other features such as the switch used for dark/ light mode.

Transferable skills:

- Layout/ mobile responsive skills.
- CSS/ CSS Processors / Bootstrap.
- Vanilla Javascript & React.
- Package Management/ NPM.
